Note.

In compliance with the Offg Dewan's orders asking for information as to how much might be expected from the proposed tax on kerosine oil, the Dr Commr reports that 4 to 600 Rs would be a reasonable estimate. This sum would be a welcome addition to the municipal funds of a town like Hassan which is so much in need of sanitary improvement. Kerosine oil moreover from its highly inflammable nature is a most appropriate article to be brought under the control of the octroi department, before it is allowed to enter a town. The article is taxed in Chickmagalur & is yielding a progressive revenue & no Complaints have been made. The proposal may be sanctioned
